

13 CLIMATE ACTION

“Combat Climate Change”

Climate Action [A/T%]

Key Focus Areas

Low Carbon Energy Use, Climate Change Education, & Carbon Neutrality Target.

Activities and initiatives achieved (2023/2024)

The University is dedicated to increasing the use of low-carbon energy on campus to reduce carbon emissions and improve energy efficiency, supporting sustainable development and minimizing environmental impact. This commitment includes actively measuring and tracking low-carbon energy usage to ensure effective implementation of energy-efficient practices across campus. By incorporating renewable energy sources and optimizing energy systems, the University aims to foster an eco-friendly environment that aligns with global sustainability goals. These efforts contribute significantly to reducing the University's carbon footprint and advancing its role in promoting responsible energy use.

SDG Scientific Research (2023)

Unlocking corporate social responsibility and environmental performance: Mediating role of green strategy, innovation, and leadership

Optimizing grid-connected PV systems with novel super-twisting sliding mode controllers for real-time power management
