

**Clinical Performance Evaluation**

Name of Student: .....Number:.....

Clinical Setting: ..... Date: .....

Subject: .....

Teacher/clinical instructor name: .....

Teacher/clinical instructor signature: .....

| Score | Description                                                                                                          |
|-------|----------------------------------------------------------------------------------------------------------------------|
| 5     | <b>Excellent:</b> Exceeds expectations; consistently demonstrates outstanding performance and professionalism.       |
| 4     | <b>Good:</b> Meets expectations; demonstrates solid performance with minor areas for improvement.                    |
| 3     | <b>Satisfactory:</b> Meets basic expectations; performance is adequate but may require improvement in several areas. |
| 2     | <b>Needs Improvement:</b> Below expectations; significant improvement needed in multiple areas to meet standards.    |
| 1     | <b>Unsatisfactory:</b> Does not meet expectations; serious deficiencies in performance and professionalism.          |

**CLO 3:****Demonstrate ethical, safe, and accountable nursing procedures learned during the course (e.g., maintaining a sterile field, wound care) in a clinical setting.**

| Item                                                                                                                     | 5 | 4 | 3 | 2 | 1 | N/A |
|--------------------------------------------------------------------------------------------------------------------------|---|---|---|---|---|-----|
| 1. Performs appropriate assessments prior to, during, and after nursing procedures                                       |   |   |   |   |   |     |
| 2. Follows correct procedures in preparing and administering medications                                                 |   |   |   |   |   |     |
| 3. Uses universal/standard precautions (hand hygiene, appropriate PPE, needle stick prevention)                          |   |   |   |   |   |     |
| 4. Completes documentation according to hospital guidelines (format, timing, abbreviations) using information technology |   |   |   |   |   |     |
| 5. Demonstrates competency in performing clinical skills and nursing interventions                                       |   |   |   |   |   |     |
| 6. Checks for patient ID and correct procedures at all times                                                             |   |   |   |   |   |     |
| 7. Protects and advocates for patient rights (privacy, autonomy, confidentiality)                                        |   |   |   |   |   |     |
| 8. Addresses all individuals with dignity and respect without discrimination                                             |   |   |   |   |   |     |
| 9. Handles incidents according to hospital policy                                                                        |   |   |   |   |   |     |

**CLO4:****Utilize critical thinking and evidence-based practice to guide clinical judgment when providing care for adult patients.**

| Item                                                                           | 5 | 4 | 3 | 2 | 1 | N/A |
|--------------------------------------------------------------------------------|---|---|---|---|---|-----|
| 10. Applies evidence-based practice in performing nursing procedures           |   |   |   |   |   |     |
| 11. Utilizes appropriate equipment and resources efficiently during procedures |   |   |   |   |   |     |
| 12. Provides holistic nursing care to patients                                 |   |   |   |   |   |     |
| 13. Makes sound clinical judgments based on patient assessment data            |   |   |   |   |   |     |
| 14. Demonstrates critical thinking in prioritizing patient care needs          |   |   |   |   |   |     |

**CLO 5 & CLO6:**

The integration of professional communication strategies and teamwork allows nursing professionals to organize patient care effectively. By applying leadership concepts, they can manage resources efficiently, leading to high-quality nursing services and improved patient outcomes.

| Item                                                                                     | 5 | 4 | 3 | 2 | 1 | N/A |
|------------------------------------------------------------------------------------------|---|---|---|---|---|-----|
| 15. Collaborates with other health care team members regarding patient care needs (CLO5) |   |   |   |   |   |     |
| 16. Provides accurate information to patients and their families (CLO5)                  |   |   |   |   |   |     |
| 17. Contributes actively to group/team activities (CLO5)                                 |   |   |   |   |   |     |
| 18. Demonstrates flexibility in adapting to changing situations (CLO6)                   |   |   |   |   |   |     |
| 19. Accepts and reacts appropriately to constructive feedback (CLO6)                     |   |   |   |   |   |     |
| 20. Actively seeks opportunities for learning and professional development (CLO6)        |   |   |   |   |   |     |

**Professional Conduct (General): Below items should be met as baseline expectations:**

- Adheres to professional dress code including hair, makeup, jewelry, and nails
- Complies with hospital policies and regulations
- Carries all delegated responsibilities

Total Score: \_\_\_\_\_ / 100 (20 items × 5 points)
