

Rubric 2: Student Evaluation for Health Education

Clinical Area :

Student Name: Student ID :

Subject Title : Date of health education :

Total Grade : /10

Criteria	Needs Improvement (1)	Satisfactory (2)	Good (3)	Excellent (4)	Score
CLO4					
Knowledge and Understanding of Maternal Health	Demonstrates thorough understanding of maternal health topics; integrates up-to-date, evidence-based information effectively.	Demonstrates solid understanding of maternal health, with accurate and mostly evidence-based information.	Demonstrates basic understanding, but with some gaps or reliance on outdated or limited information.	Lacks adequate understanding of maternal health; significant gaps or outdated information.	
Application of Evidence-Based Practice	Excellent application of current research, guidelines, and best practices; consistently integrates evidence-based practices.	Good application of research and guidelines; evidence-based practices used with minor gaps.	Limited application of evidence-based practices; relies on general knowledge with few specific examples.	Little or no application of evidence-based practices; research findings or guidelines are missing.	
Critical Thinking & Problem-Solving	Demonstrates advanced critical thinking and problem-solving skills, providing innovative solutions to maternal health challenges.	Demonstrates good critical thinking and problem-solving, offering practical and well-thought-out solutions.	Basic problem-solving with limited critical thinking; solutions are somewhat underdeveloped.	Lacks critical thinking and problem-solving skills; solutions are unrealistic or absent.	
CLO5					
Effective Communication	Communicates information clearly, concisely, and professionally; engages and maintains the audience's attention using appropriate language.	Communicates clearly and effectively but may not fully engage or clarify all points.	Communication is understandable but lacks clarity or engagement with the audience.	Communication is unclear or disorganized, failing to engage or inform the audience effectively.

Date: 29/10/2025

Group Collaboration	Actively contributes, communicates effectively, and collaborates cohesively, ensuring a strong and unified team product.	Collaborates well with the group, contributing to the success of the project with some minor areas for improvement.	Participates in group work, but collaboration may be inconsistent or less effective, impacting the overall outcome.	Limited or ineffective participation in group collaboration does not contribute meaningfully to the project.	
CLO6					
Creativity & Innovation	Demonstrates high creativity in approach, bringing fresh and innovative ideas to the assignment that enhances the overall impact.	Displays creativity and originality; introduces some new ideas or approaches that improve the project.	Some creativity, but relies on conventional or common approaches, with little innovation.	Lacks creativity: the project is basic, unoriginal, and does not show innovative thinking.	
Use of Audiovisual Materials	Excellent use of audiovisual materials that effectively enhance the understanding of the topic, are well-produced, and engaging.	Good use of audiovisual materials; they are clear, relevant, and enhance the project, though may lack some polish.	Audiovisual materials are used, but they are somewhat unclear, irrelevant, or underdeveloped.	Minimal or ineffective use of audiovisual materials does not significantly contribute to the assignment.	
Time Adherence	Completes the assignment on time, meeting all deadlines and submission requirements without exceptions.	Submits the assignment on time, with minor delays or issues, but meets most requirements.	Submits slightly late or with minor omissions; meets some, but not all, submission guidelines.	Submits late or does not meet the submission deadlines or requirements.	

Total score: /24  /10
